ONLINE EVENTS

GRANDSON AND GRANDFATHER - SERGEI OLEGOVICH PROKOFIEFF THE ANTHROPOSOPHIST AND SERGEI SERGEYEVICH PROKOFIEV THE COMPOSER.

Eric Klein

July 10th (SA 8.00pm zoom)

A gaze into the cultural and spiritual life of the 20th century through the lens of the musical genius Sergei Prokofieff and his grandson, the co-founder of the Anthroposophical Society in Russia once the Wall fell. Sergei O. Prokofiev was born a year after his famous grandfather died, a great composer who, like Shostakovich, chose not to defect like so many of his contemporaries. Is there a significant Karmic thread between grandfather and grandson for the future evolution of humanity?

Eric Klein was born and raised in an Anthroposophic home in New York. He was educated at the Rudolf Steiner School in New York City and has worked as a performing musician, composer, conductor, teacher and lecturer.

Introduction to Karma Research

An online journey into the deeper patterns shaping your life

Have you ever wondered why certain relationships or life situations keep repeating? Why some encounters feel unusually intense, as if they carry a deeper history? This 5-session online course offers a practical and grounded introduction to karma research, helping you begin to recognise and work with the patterns shaping your life.

What you will experience:

- A clear overview of contemporary karma research tools and approaches
- Guided practice of Rudolf Steiner's 4-day karma exercise
- A supported entry into deeper inner work
- The opportunity to continue into a year-long modular programme

Who is this for?
This course is open to anyone interested in spiritual science, from complete beginners to experienced researchers seeking practical methods.

About the facilitator:
Angela Katschke is an experienced art therapist, coach, trainer, and facilitator with many years of work in karma research and anthroposophy. She works closely with Mike Chase, author of Karma Drama, bringing together practical insight and lived experience.

Platform: Zoom (online)

Contribution: Donation-based, supporting Angela's training initiatives across Africa

Dates and times (SAST):
Thursdays: 16 July, 23 July, 30 July, 6 August (19:00 to 20:30)
Sunday: 2 August (12:00 to 13:00)

Spaces are limited to support a focused and engaged group experience.

A READING OF THE GREEN SNAKE AND THE BEAUTIFUL LILY

With Matt Dexter

July 24th (SA 8.00pm Zoom)

Steiner metamorphosed Goethe's *Green Snake and the Beautiful Lily* into his first

mystery drama, depicting a group of people striving to understand their karmic relationships, their 'knot of destiny'. His further mystery dramas portray the same characters in their evolving lives and in previous incarnations, revealing the weaving of their karmic threads.

Matt trained in acting and speech formation and performed The Green Snake in Camphill. He played the part of Capesius in all four of Steiner's mystery dramas.

BECOMING AWARE OF THE ETHERIC TECHNOLOGY & THE ETHERIC REALM

August 6 – 9, 2026 Online Worldwide 15+ International Speakers

What is the MysTech Conference about?

MysTech is dedicated to helping humanity achieve its evolutionary goal of the interpenetration of the moral and the mechanical. While cultivating a healthy relationship between human beings and machines, MysTech endeavours to engineer a class of machines that respond only to a human's moral impulse.

Over the past century, we have witnessed astonishing technological advancements that have profoundly impacted our daily lives, health, relationships, and even consciousness — often in unexpected ways. When we consider these developments in the context of our evolution as both physical and spiritual beings, we are led to important questions: How will technology contribute to our future? Is there an evolutionary purpose to what we now and will face from technology? How can we wrest from these stages of evolution what will be needed for humanity's future roles?

At this conference, you will gain fresh insights into the mysteries of technology from the perspective of spiritual science, presented through the original research of our distinguished speakers. You will also deepen your appreciation for social threefolding, biodynamics, eurythmy, and more — and discover how these approaches and ways of thinking can empower us to meet the challenges of the modern age.
