THE DAWNING OF THE NEW MYSTERIES OF THE HOLY GRAIL- the Time is at Hand, online presentation by Florian Sydow Sunday June 21 9pm SA time.

"The Time is at Hand", these mysterious words stand at the heart of Goethe's Fairy Tale of the Green Snake and the Beautiful Lily, a work that Rudolf Steiner later described as the "archetypal seed" of the Anthroposophical Movement.

According to Spiritual Science, the Kali Yuga, the Age of Darkness, came to an end in 1899, marking the threshold of a new Age of Light (New Krita Yuga) in humanity's spiritual evolution. On Michaelmas Day, September 29, 1900, Rudolf Steiner delivered his first esoteric lecture, Goethe's Secret Revelation, devoted to Goethe's remarkable Fairy Tale and the mysteries it contains.

In the concluding lecture of The Temple Legend, titled The Royal Art in a New Form, Steiner pointed toward a profound future mystery when he stated:

"This force is symbolized by the Sign of the Tao and was poetically symbolized in the image of the Holy Grail."

What is this force? How are the Tao and the Holy Grail related? And what did Steiner mean when he spoke of a future Moral Technology animated not merely by mechanical power, but by moral and Spiritual Etheric Forces?

This presentation will explore the renewal of the Grail Mysteries in modern times, tracing a path from Goethe's Fairy Tale and the Mystery Dramas to Rudolf Steiner's indications concerning the Tao, the Grail, and the emergence of a future Moral Technology grounded in wisdom, beauty, freedom, and selfless love.

This will be the 3rd in a series of 7 Presentations devoted to the Holy Grail. The lecture is free, but a donation will help to support this program and provide for a speaker honorarium. CHARTRES CATHEDRAL: A TESTAMENT TO ITS HUMAN BUILDERS INSPIRED BY DEEP FAITH AND THE IMMENSE WISDOM OF THE SCHOOL OF CHARTRES.

With Peter van Breda

June 26th (8.00pm SA Time Zoom)

Peter first visited Chartres 54 years ago as a student of Emerson College and has returned many times, feeling blessed and inspired by the majesty of this medieval Cathedral reaching up like a sounding symphony in stone born as it is out of mystery wisdom. Rudolf Steiner tells us that many individuals of that spirit filled time (12th and 13th century) became at the end of 19th century part of the founding membership of the Anthroposophical Movement.

A course given by William Mann, at Emerson College led Peter to recognise that art through the ages can offer a direct indication of the phases of consciousness through which we have evolved. This carried within it the mystery of reincarnation.

BECOMING AWARE OF THE ETHERIC – MysTech's online Conference

6th -9th August. *"Everybody is obliged to undergo the battle; in its effects it is experienced by everybody. There would be no greater fallacy than to say: We must rebel against what technical science has brought to us in modern life, we must protect ourselves from Ahriman, we must withdraw from this modern life. In a certain respect such an attitude would be an indication of spiritual cowardice. The real remedy lies not in allowing the forces of the soul to weaken and to withdraw from modern life, but in so strengthening these forces that its pandemonium can be endured. World-karma demands a courageous attitude to modern life, and that is why genuine Spiritual Science calls at the very outset for effort, really strenuous effort on the part of the human soul."*

COSMIC SOUND INTO BEING, FORM AND COLOUR - a recorded talk by Daniel Hinds and Barbara Bresette-Mills hosted by the Front Range Anthroposophic Café. The presentation continues on the theme of Rudolf Steiner's eurythmy figures that Daniel and Mary gave in May, centered on the vowel figures. In this session, concentration will be given to the figures form and colours for the consonants.

We'll explore a particular sequence given that bring an imagination and experience of the unfolding of human development. Working with figures and colours can bring insight and feeling into the cosmic nature of the sounds and how they influence us.
